

# SHE representative Empowerment Program Introductory Overview

## The Topwire Technologies PTY (LTD) Witbank Team

## Presentation Prepared For

**Presentation Prepared For** SACESHA Annual Conference

The primary objective of this project is to gain greater participation from the SHE representatives in the safety strategy to achieving “Zero Harm” by giving them a powerful tool to enable the SHE representative to effectively resolve and efficiently execute their duties.

Mike Hayward

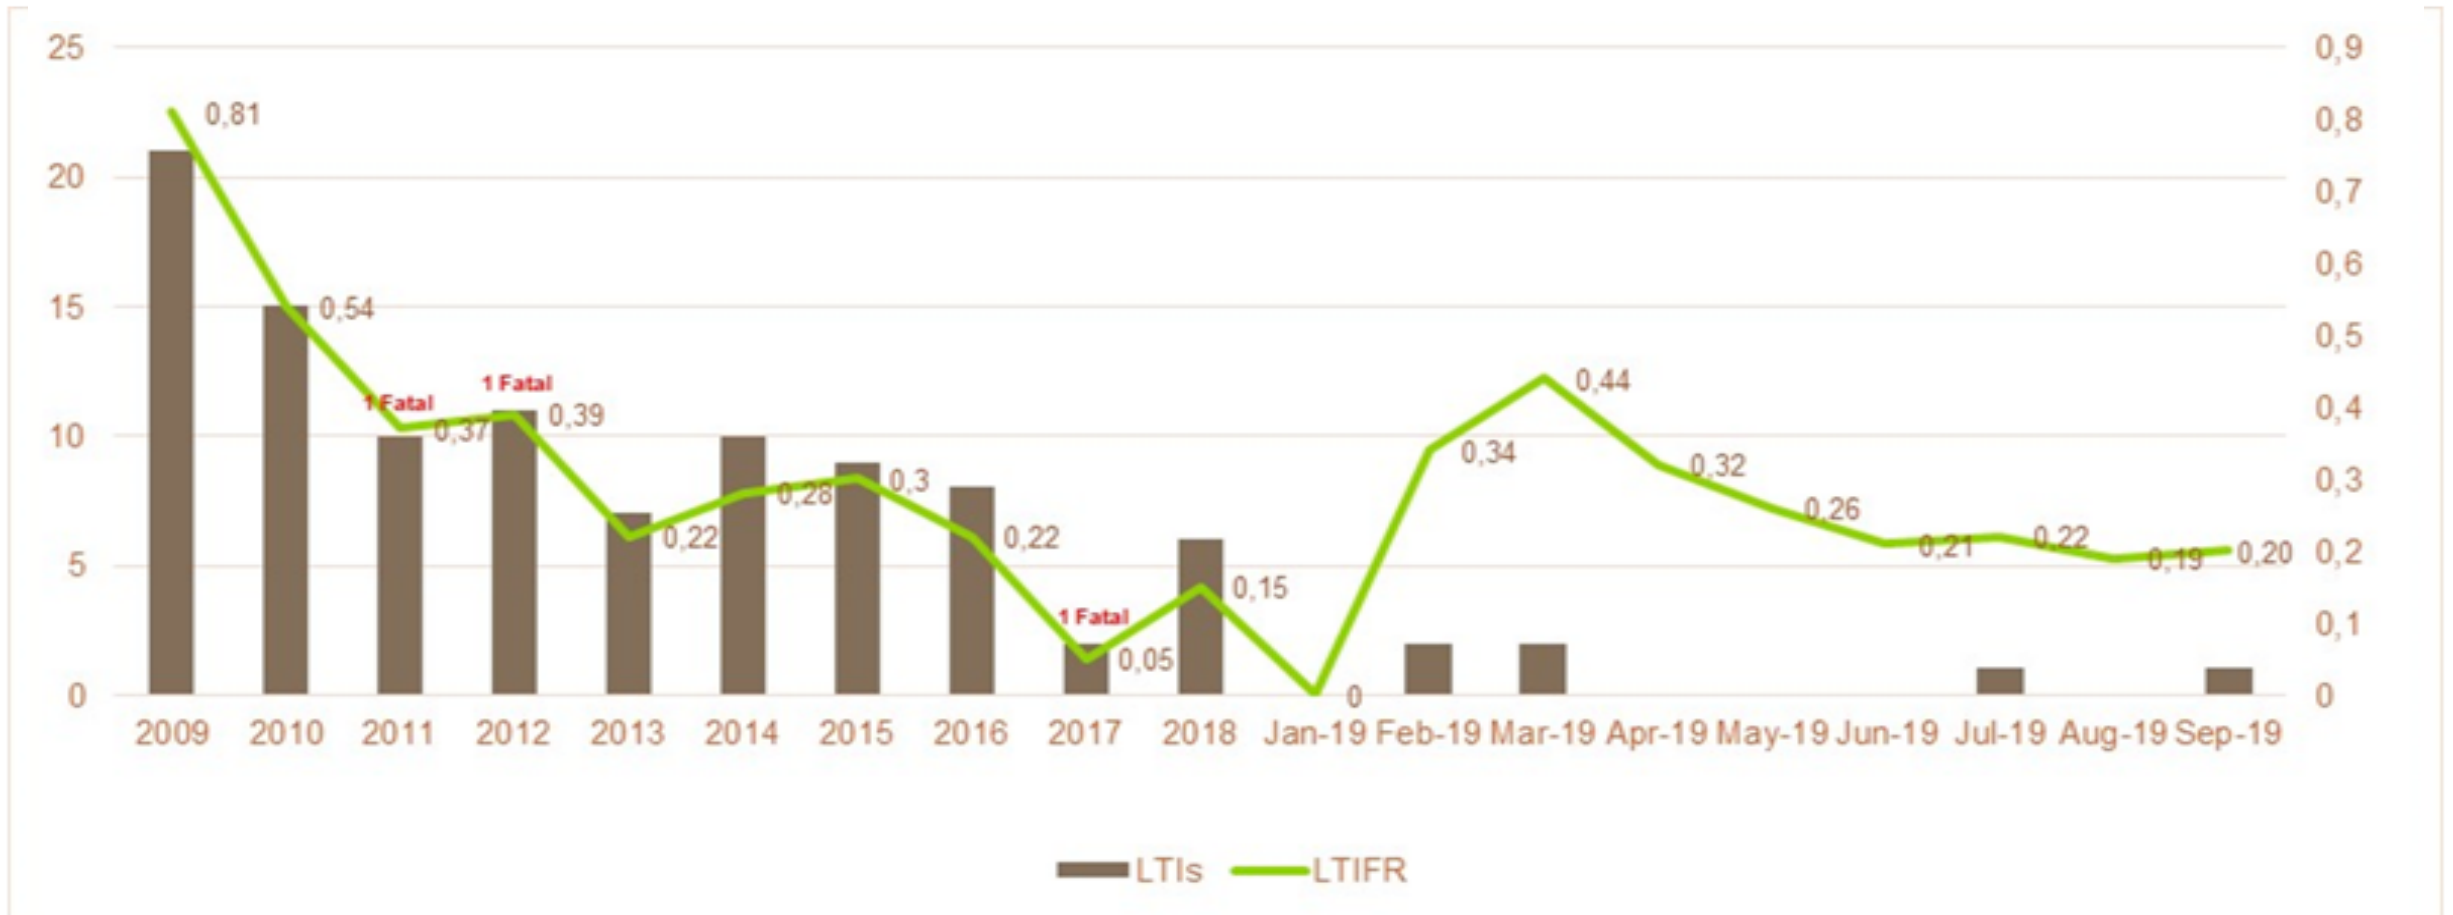

# SHE Representative Empowerment Program Introductory Overview

## Processes

# Lost Time Injury Frequency Rate

## Conclusion

There is a long journey forward to train and utilize SHE representatives to be a bigger part of the “Zero Harm Drive”

Although we have commenced with start of shift underground, we have Plant, Engineering, Procurement, Training, Canteen, Health Centre and office start of shift ready for rollout

The whole program is available as a plug and play system (like many mine’s induction program)

NB The program is fully endorsed by the DMR
