# CONFERENCE & ANNUAL GENERAL MEETING

WEDNESDAY

26

JANUARY 2022

## REGROUPING & REBUILDING as HSEC PROFESSIONALS in the COAL MINING INDUSTRY

The year 2020 introduced a new way of life. . .

With it came challenges of inability to access other professionals in the same way one could in the years prior. As a professional association, we could no longer have technical visits which translated to limited sharing of best practice and overall interaction amongst professionals.

In 2021 we adapted and made use of virtual platforms. We started our process of getting together again as members. We need to have that dialogue and talk about HSE matters from all angles in order for us to continually improve on Coal Industry HSE performance.

Let us Regroup and Rebuild SACESHA and in turn HSE professionals in the Coal Mining Sector.

### PROGRAMME

07:00 – 07:50	REGISTRATION AND NETWORKING WITH EXHIBITORS
